DETAILED ACTION

Election/Restrictions

Claims 1, 2, 4-9, 12-14, and 22 are allowable. The restriction requirement as set forth in the Office action mailed on both 8/9/05 and 6/7/05, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 3, 10 and 19-21 are no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim. However, claims 15-18, directed to groups still withdrawn from consideration because they are product claims.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Reasons For Allowance

Claims 1, 2, 4-9, 12-14, and 22 have been allowed over the prior art.

The following is an examiner's statement of reasons for allowance: Prior art fails to teach a method of forming shallow trench isolation regions in a silicon-on-insulator layer on a buried oxide layer, the method comprising: selectively depositing silicon dioxide in the shallow trench isolation region without depositing the silicon dioxide on the first and second active regions by nucleating the deposition of the silicon dioxide on the buried oxide layer. This limitation, in conjunction with the other claim limitations, was neither disclosed in, nor suggested by, the prior art. The arguments presented with respect to this limitation were found to be persuasive.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
